Pakistan

PROFILE

I am a developer proficient in web, mobile and desktop app development. I enjoy turning complex problems into simple, beautiful and intuitive solutions, especially for consumer and business-facing systems where UI, UX and reliability matter.

EXPERIENCE

Full-stack Developer

Devscot | Dec 2020 - Present

Samundri, Punjab, Pakistan - Hybrid

Working on company products and software-as-a-service projects that help businesses grow, simplify operations and improve internal workflows.

Full-stack Developer

Schooliee - School Management System | Mar 2025 - Present

Samundri, Punjab, Pakistan - Hybrid

Building a multi-school management product that helps schools sign up, pay monthly and manage daily work with clearer communication between parents and schools.

Full Stack Developer

LeadProfit | Mar 2023 - Feb 2024

Samundri, Punjab, Pakistan - On-site

Supported internal systems and strengthened practical full-stack skills while working with business-facing software.

Full-stack Developer

CrazyBeings Studios (Pvt) Ltd. | Dec 2020 - Mar 2023

Faisalabad, Punjab, Pakistan - Hybrid

Built SaaS and digital identity projects for businesses that needed stronger reach, clearer product presence and revenue-focused systems.

STRENGTHS

Full-stack execution

Comfortable across frontend, backend, mobile, desktop, automation and deployment.

Business workflow focus

Builds around real operations: fees, attendance, invoices, leads, dashboards and reporting.

Product communication

Strong fit for teams that need clear implementation, UI judgment and practical delivery.

Reliable daily software

Experience on systems where parents, schools, customers and internal teams use the product every day.

SERVICES

- SaaS and dashboards
- Mobile apps
- AI automation
- Desktop tools
