STRENGTHS

Lead Full-Stack at Devscot

Spearheading product engineering and core multi-tenant architectures across enterprise SaaS products.

Full-Stack & Real-Time

Fluently executing across Next.js 16, React 19, TypeScript, Convex real-time schemas, and cross-platform apps.

Practical Business Architecture

Engineered mission-critical systems: multi-school ERPs, fee challan billing, and logistics dashboards.

Craftsmanship & Reliability

Focused on high uptime, offline-first architectures, sub-second latency, and intuitive UX.

TOOLKIT

Next.js 16

React 19

TypeScript

Convex

React Native

Expo

OpenAI

WhatsApp API

Tailwind CSS v4

Node.js

Prisma

MongoDB

PostgreSQL

Docker

Electron
